West Baltimore MARC Station Virtual Concept Design Meeting

Tuesday, March 15, 2022

6:00 pm – 7:30 pm

Use the link or scan the QR code to sign up today! bit.ly/WestBaltimoreMARCMeeting1

A new West Baltimore MARC station is a key element of the B&P Tunnel Replacement Program. Located along the Northeast Corridor south of the existing B&P Tunnel, the new West Baltimore MARC Station will be constructed in the same general area.

The purpose of the meeting is to:

- Introduce the new station design concept to the community
- Highlight the improvements compared to the existing station, including ADA accessibility
- Request community feedback on the two platform canopy design options
- Solicit community feedback on suitable locations for public art
