

## Construction Notification

January 26, 2025

### Upcoming Activities

#### **Manhole Work**

Crews will be conducting work in the manholes along N. Payson St, between Mosher St and Riggs Ave, starting in late January. This work will continue through early March, weather permitting. Roads will remain open during this time. Please use caution when traveling through this area as crew members will be flagging to direct traffic.

#### **Demolition**

Contractors for the Frederick Douglass Tunnel Program are scheduled to begin demolition starting in late January at 501 Bentalou St. The on-site work will begin with the installation of a steel project fence with screening. This safety measure is intended to keep adjacent property owners safe from construction activity.

Amtrak is committed to conducting this work in a manner that is least disruptive to the community. For your safety, we ask that you please keep all children and pets away from the construction area.

During construction, you should expect the following:

- Workers and construction vehicles in and around the construction site
- Increased noise levels, consistent with typical construction activity

- Intermittent closure of sidewalks and walkways
- Temporary parking restrictions, when needed

### Temporary Water Line Installation

Our team has moved the temporary water installation along W Lanvale St, N Brice St, and Pulaski St to January 28, 2025. While we will maintain pedestrian access to homes during construction, there will be periods of time when the sidewalk may be closed.

Residents can also expect:

- Parking restrictions
- An increase of contractors in the area
- An increase of construction equipment, noise, and dust

*Please Note: At this time, no interruptions to water service are expected. If this should change, we will contact customers.*

### Ongoing Activities

- Crews continue to conduct surveys, complete preconstruction inspections, install instrumentation and monitoring devices, and complete utility investigations throughout the project area.
- Temporary water line installation is still under way along N. Payson Street. Expect possible lane closures and an increase of truck traffic in the area.
- Crews will continue utility relocation work in the vicinity of Ducatel Street and North Ave. Expect an increase of construction traffic in the area as crews bring in materials. You will continue to see lane closures and sidewalk closures in the area as needed.

#### PLEASE NOTE:

*Crews generally work Monday through Friday from 7:00am to 5:00pm, weather permitting. Construction activities are subject to change and modifications to the schedule may become necessary due to weather delays or other unforeseen conditions.*
