

Construction Notification

February 23, 2025

Upcoming Activities

Manhole Work

Crews are scheduled to begin working in the manholes in the alleyway behind the 900 block of N Payson Street in late February and continue through early March, weather permitting. The alley will remain open during this time. Please use caution when traveling through this area as crew members will be flagging to direct traffic.

Demolition

Contractors for the Frederick Douglass Tunnel Program are scheduled to begin demolition at 2022-2036 W Lanvale St on or about February 25, 2025. The on-site work will begin with the installation of a steel fence with screening. This safety measure is intended to keep adjacent residents safe from construction activity.

Amtrak is committed to conducting this work in a manner that is least disruptive to the community. For your safety, we ask that you please keep all children and pets away from the construction area.

During construction, you can expect:

- Workers and construction vehicles in and around the construction site
- Increased noise levels, consistent with typical construction activity
- Intermittent closure of sidewalks and walkways
- Temporary parking restrictions, when needed

Ongoing Activities

- Crews continue to conduct surveys, complete preconstruction inspections, install instrumentation and monitoring devices, and complete utility investigations throughout the Program area.
- Crews continue to work to relocate utilities in the 700 block of N Pulaski Street. During construction, you should expect:
 - Workers and construction vehicles in and around the construction site
 - Increased noise levels, consistent with typical construction activity
 - Message boards and no parking signs
 - **Full road closure of N Pulaski Street from Lafayette Avenue to Harlem Avenue, on or about March 10, 2025**
- Crews continue to install temporary water lines along N Payson, N Pulaski, N Brice and W Lanvale Streets. Expect possible lane closures and intermittent sidewalk closures in the area.
- As a part of the utility relocation in the N Payson area, crews will perform meter connection tie-ins which will **require a planned water outage in the 1900 block of Lafayette Avenue on or about February 28, 2025** for approximately two hours. Impacted homes will receive prior notification.

At this time, no additional areas are expected to have interruptions to water. If this should change, we will contact customers.

PLEASE NOTE:

Crews generally work Monday through Friday from 7:00am to 5:00pm, weather permitting. Construction activities are subject to change and modifications to the schedule may become necessary due to weather delays or other unforeseen conditions. Please use caution when traveling in construction areas.
