

Construction Notification

July 27, 2025

We are committed to delivering this Program with your safety as our top priority

Upcoming Activities

Mobilization

Starting this week crews will begin to mobilize on North Ave between W Mt. Royal Ave to N Howard St. in preparation for utility relocation work. This mobilization includes bringing in equipment and materials and installing construction fencing around the perimeter of the work area.

- During construction you may experience an increase in truck traffic, construction noise, and dust
- Please use caution when moving through this area

Waterline Installation

Crews have begun installing a temporary water line in preparation for utility relocations along North Ave between W Mt. Royal Ave to N Howard St. Please use caution when moving through this area.

Residents can also expect:

- Parking restrictions

- An increase in contractors in the area
- An increase in construction equipment, noise, and dust

Please note: At this time, no interruptions to water service are expected. If this should change, we will contact customers.

Nighttime Work

Construction crews will begin working at night within the construction site near **Harlem Ave** and **N Pulaski St.**

You Can Expect:

- Low hum of construction equipment
- Light towers focused on the work areas
- Noise associated with moving debris

We understand this work may cause some inconvenience and appreciate your patience as we work to complete these critical activities.

Ongoing Activities

W Mulberry Street Detour and Closure

As part of the Program, a temporary detour will soon be in place on **W Mulberry Street**, between **N Warwick Avenue** and **N Mount Street**. Pre work is currently underway.

What to expect in the coming weeks:

- Placement of long-term detour signage
- Grading and paving at W Franklin Street & Warwick Avenue
- Installation of concrete barriers
- Lane closures on W Franklin Street
- Lane closures on W Mulberry Street
- Repainting of road and lane markings and changing traffic patterns
- Crews working at W Franklin Street & N Fulton Avenue

Excavation for Utility Siphon Tunnel

Crews have mobilized on the 800 block of Spedden St for the construction of the utility siphon – a small tunnel that will relocate existing utilities under the existing Amtrak Northeast Corridor railroad tracks.

- Contractors have installed sound barriers to reduce noise levels during construction and fencing around the perimeter of the construction area
- There may be increased activity along Spedden St, N Pulaski St, W Lanvale St, and W Lafayette Ave as work ramps up
- Detour signage and/or flaggers will be provided to indicate any traffic modifications and help motorists and pedestrians navigate through the area

Erosion and Sediment Controls

To control stormwater flows leaving the construction site, contractors have installed temporary asphalt berms across Harlem Ave at N Pulaski St. Travelers are advised to slow travel speeds as they move along these roads.

Pile Driving and Excavation

Crews continue excavation efforts for the utility siphon tunnel and will install additional steel sheet piles behind the 900 block of N Payson St, 700 block of N Pulaski St and the 800 block of Spedden St.

- Residents can expect elevated noise from construction activities and moving equipment,

such as jackhammering and equipment backup alerts

Manhole Work

Crews continue working on manholes:

- in the 1000 and 900 blocks of N Payson St and Mosher St

Please use caution when traveling through this area as flaggers will direct traffic.

Other Work

- Crews continue to survey the area, complete preconstruction inspections, install instrumentation and monitoring devices, complete utility investigations, and work in manholes throughout the Program area
- Work continues on N Pulaski, W Lanvale, W Lexington, and N Brice Streets, primarily within fenced areas. While much of the activity is not immediately visible to the community, crews remain active throughout these construction zones
- Crews continue to install water lines along Rayner Ave. and N Brice Streets
- Impacted residents will receive additional notification prior to any expected water shut offs

Traffic Modifications

- Full road closure of N Pulaski St between W Lafayette Ave and Harlem Ave
- Flaggers will be periodically directing traffic along N Payson St due to ongoing construction activities

PLEASE NOTE:

*Crews will generally work **Monday through Saturday from 7:00am to 5:00pm** unless working extended hours. Construction activities are subject to change and modifications to the schedule may become necessary due to weather delays or other unforeseen conditions. Please use caution when traveling in construction areas.*
