Host Railroads & On Time Performance

Amtrak relies heavily on the cooperation of other railroads in order to operate routes using tracks that are not owned or controlled by Amtrak. Host railroads are statutorily required to provide Amtrak trains “preference” over freight transportation. However, on time performance on most host railroads is poor and continues to decline largely due to hosts ignoring their statutory responsibilities.

Listed below is the Amtrak service that operates in Idaho with host railroads and on-time performance (OTP) in FY19:

Service	Host Railroads	FY19 OTP
Empire Builder	BNSF, Canadian Pacific, and Metra	46.1%

“On-time performance” represents the percentage of stations at which the train arrives within 15 minutes of the scheduled arrival time.

Amtrak completed renovations and upgrades to the station at Sandpoint, using state funds that were made available as part of the Sand Creek Byway project. The project was a recipient of an "Excellence in Historic Preservation" award at the 38th annual Orchids and Onions Awards Ceremony that is held by Preservation Idaho, the state's historic preservation council. The station's passenger lobby reopened in 2015.
