

Amtrak profiles in Sabre PNR

OVERVIEW

The following formats must be present in *Sabre* PNR in order to have a customer's profile applied to the *Sabre Rail Amtrak* application. They are stored in *Sabre* PNR as standard *Sabre* remarks entries.

- Each profile's remark starts with R¥.
- The native *Sabre* format is entered after 5R¥.
- The total length of 5R¥ must not exceed 56 characters (including 5R¥)
- The "non-safe" Sabre Host characters are not allowed within the "5R¥" entry and must be removed or replaced with other characters (*please refer to generic *Sabre* documentation)
