G. FUELING OF PRIVATE CARS

1. If a Private Car requires fueling for a petroleum product (diesel or fuel oil), the Private Car Owner or Designee can either use a fuel vendor that is already under contract with Amtrak or select a fuel vendor that meets Amtrak's on-site fueling requirements. In either case, Amtrak must be provided with notice that fueling will be taking place by contacting, Charter and Special Movements by email at Specialmoves@amtrak.com. This requires information including the planned location for the fuel delivery, the name of the fuel vendor and if the fuel vendor is not an Amtrak-contracted vendor, a certification that the alternative fuel vendor meets all Amtrak fueling requirements listed in this document. The Private Car Owner is also responsible for the remediation of any leak or spill of fuel or other contaminant and appropriate notification to Amtrak of the spill, as detailed in Section G.5.

2. Vendors providing fuel services must take all precautions to prevent any spillage during the transfer of fuel to the Private Car's petroleum storage tank. Private Cars must only be fueled in an appropriate area with the use of drip pans or track pads. No fueling may take place near any storm drains or open water channels without the use of spill containment equipment.

Fuel vendors are required to provide, carry and use the following spill equipment:

- Suitable fueling containment funnel to be placed beneath the fill port of the Private Car
 - 5-gallon bucket or collection receptacle to be positioned under the funnel while refueling
 - Oil absorbent materials
 - Compatible delivery equipment, including all fittings and adaptors
3. The Person-In-Charge must be present when the Private Car is being fueled by a vendor to ensure that these policies are adhered to. As per the terms of this document, the Private Car Owner will be solely liable for any failure to adhere to these policies and for any resulting damages or liability.
 4. During the transfer of fuel to the Private Car, the fuel vendor must check the tank levels prior to fueling, continuously monitor the fuel delivery operation, never top off a tank, and make sure all equipment is in operating order and position the spill collection material around the fill pipe. The fuel vendor shall train their employees on the proper fueling technique for Private Car petroleum tanks and can use the Amtrak training video "Amtrak's Proper Locomotive Fueling Techniques" (available on the Amtrak Private Car Website) as part of this required training. It is the responsibility of the Private Car Owner to ensure that any drips or leaks are captured during fueling, and that materials used for capture, such as used absorbent materials, are removed from Amtrak Property and any contaminated material is properly disposed of off Amtrak Property.
 5. In the event of a spill, the fuel vendor must immediately cut-off fueling, use the spill equipment to contain and absorb the spill, immediately contact the Private Car Owner or Designee and Amtrak personnel on-site and complete the spill clean-up including the disposal of any contaminated soil, ballast or other material by a licensed waste firm. In disposing of any contaminated material, the Private Car Owner Group shall never use any Amtrak EPA Generator ID numbers. If no Amtrak personnel are available on-site to report the spill, the spill must be reported to CNOC at 1-800-346-1738 (24-hour number). All spills of any quantity must be reported to the Amtrak Environmental and Sustainability Group at 1-215-349-3700 to be documented by the Amtrak Environmental Public Health Information System (AEPHIS).

H. ANNUAL CAR ADMINISTRATIVE FEE

1. An Annual Car Administrative Fee is due January 1st of each year. Each Private Car that operates on Amtrak must pay this fee and there will be no substitution of cars. This is a per-car fee and no multiple Private Car discounts will be allowed.
2. No Private Car Moves will be considered for any Private Car for which this fee is not paid in full.

I. COMPLIANCE

1. If a Private Car Owner Group, Person-in-Charge, and/or Occupant fails to comply with any provision of this document, Amtrak's Manager of Special Movements shall, in his or her sole discretion, determine which of the following categories applies. In all cases, the determination is independent of the consequences, meaning a failure to comply is still a failure whether or not, for example, an accident or injury occurred.
 - a) Human Error, defined as an inadvertent action such as a slip, lapse, or mistake. In this instance Amtrak's Manager of Special Movements shall issue a written acknowledgement of the incident to the Private Car Owner Group, Person-in-Charge, and/or Occupant.
